

Model:
CD90

Icemaker - Nugget Ice
 85kg production, 20kg storage bin

Technical Drawing

Key Features

- Vertical evaporator production
- Heavy duty auger
- Diamond / nugget ice production
- European manufactured to ISO9001 standards
- Electromechanical operation for high reliability
- External on/off switch

Construction

- Stainless steel exterior
- Hard wearing ABS interior
- High density insulation

Available Options

- Everpure 4H water filter

Technical Data

Model	CD90
Production	85kg*
Storage	20kg
Cube style	Nugget
Production method	Cylindrical evaporator / auger
Operating ranges	Air temperature 5°C - 40°C
	Water temperature 5°C - 35°C
	Water pressure 0.7 - 6 bar
Refrigerant	R452a
Refrigerant charge	280 gram
Water inlet connection	3/4" BSP
Drain connection	20mm
Electrical connection	220V 50Hz - 220V 60Hz
Maximum input power	533w
Dimensions (w,d,h mm)	465 x 595 x 790

* Production values calculated at 15°C air temperature, 10°C water temperature
